

- Name of site/company
  - Eyelash Extension
- Description of your design concept/approach
  - To provide users with information, photos, availability, pricing, services of eyelash extensions, to best convey this content I think it will be best to have an uncluttered page that is easy to read and follow along.
- What you hope to accomplish with your design concept/approach
  - I hope users can easily navigate the site to find the information they need that is both eye appealing, clean, and professional.
  - There will be a menu bar horizontally at the top with Service/Pricing, Gallery, Contact Information, FAQs, About the business, and a Book online feature.
  - The content of the main page will describe what eyelash extensions are, feature a photo sequence, and the application of them and an icon to book online
